EXECUTIVE SUMMARY

The founder, Mr. Md. Badiul Alam, laid the foundations for his textile supply business in 2004. He could never have imagined the size and international significance that the company would one day achieve in the now more than 16 years. But there was something clear from the very beginning: only the highest possible level of customer service and close cooperation in the development of new products would lead to success. Still today, these are the values which shape our company culture and which must be preserved above all.

We always rely on our employees. It is only thanks to their commitment that we have been able to grow our company so successfully. At the same time, they remind us of the huge responsibility that we have to people and to the environment with our products. "

Often criticized chemistry, and thus also the chemical industry, have become an integral part of our world - that's a fact. It is therefore all the more important to take concepts such as sustainability, environmental protection and social responsibility seriously. New paths should be explored with the awareness that not everything that is technically possible is also advisable - and at the same time, the focus must be on the appreciation of people in a new era. "

German Chemicals Ltd. is one of the largest 100% export oriented Textile Auxiliaries Chemicals industry located in Dhaka Export Processing Zone (DEPZ), Ganakbari Savar, Dhaka, Bangladesh, established in 2004 Under Bangladesh Export Processing Zone Authority (BEPZA). More than 100 staffs are working at this moment. German Chemicals Limited earns foreign exchange and generates income for the government in terms of wage earning of a plant for the production of chemicals. After 16 years of successful operations, **GERMAN CHEMICALS LTD.** is the largest textile chemical producer is acknowledged as a significant driver of socio-economic development, both for individuals and the nation. GCL always provide seamless services with competitive advantages. GCL is committed to be your indispensable source of one-point solution. To acquire by purchase or otherwise the assets of the going concern known as M/S. German Chemicals together with license good will thereof, its present address (SFB-7 Ground floor Dhaka Export Processing Zone (DEPZ) under BEPZA, Ganakbari, Savar, Dhaka-1349). The company was incorporated on April 13, 2008 under the Act 1994 with the object of

providing humble services to the customers and obtained the Certificate of Commencement of Business from the Registrar of Joint Stock Companies. The business segment "Textile Chemicals" develops manufactures and sells tailor-made textile auxiliary formulations for the industrial bulk consumer of the textile finishing industry. These auxiliaries are mainly used in retreating, dyeing and finishing processes and are optimized according to the process- and effect-specific requirements of individual process steps. This special "know how", combined with an extensive service from German Chemical, enables customers to reduce process costs, to increase quality and to further expand their technological lead.

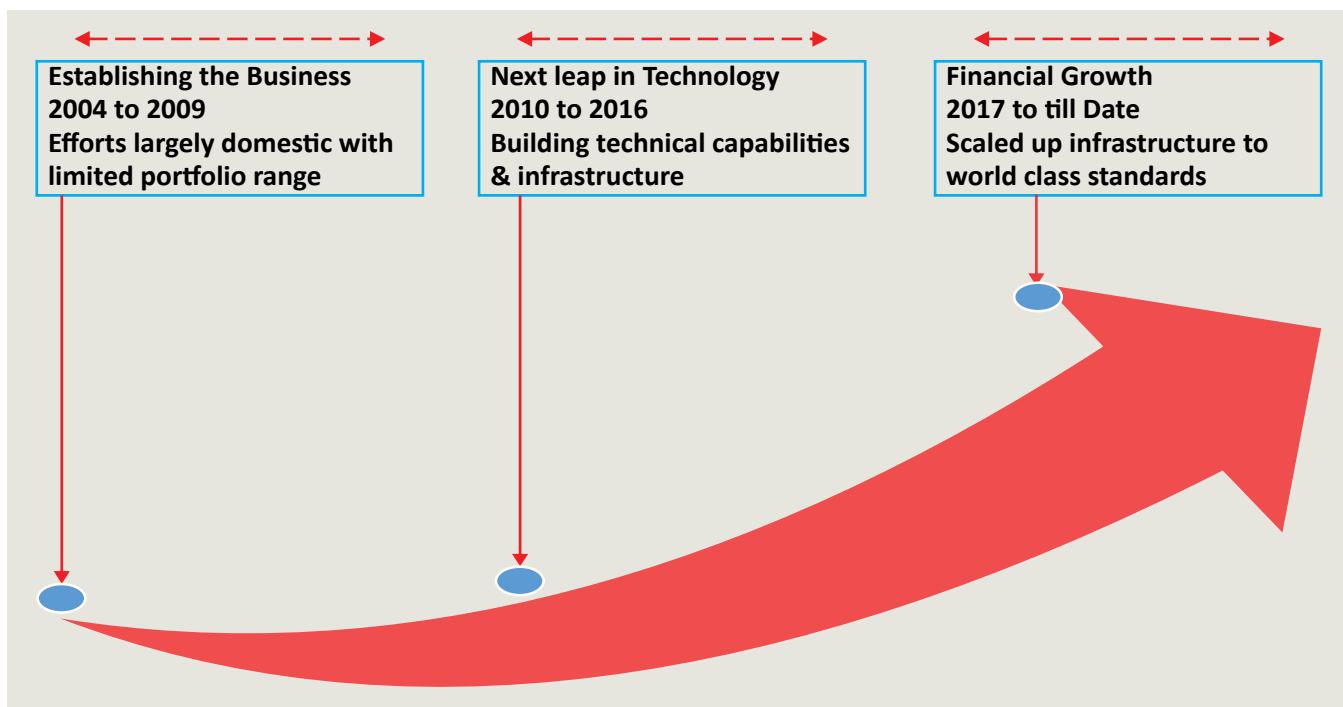

The **GERMAN CHEMICALS LIMITED (GCL)** sees itself as a global service provider for the whole textile industry. 100 GCL employees work at developing innovative products to contribute to our customers' success, many of whom belong to different industries. Even the smallest details are developed together by an exchange of experience to be able to combine and reflect the requirements of a wide variety of cultures. This enables us to convey our strict rules and regulations as part of a personally created value chain, even in which people take liberties with environmental protection and sustainability.

Similarly, we also react to people's particular needs on site in that we ensure that our measures are also implemented in these production facilities and laboratories, faithful to the motto:

OUR JOURNEY

Having started a venture 16 years ago, today we are privileged to be a founding member of one of the most competitive chemical company with emphasis on efficiency in operations, reliability for customers and trust on sustainable development. For us, sustainability means aligning economic success with environmental and social responsibility. In the last few years the German Chemicals Limited faced a series of prolonged crises. These crises allowed us to gain invaluable experience and guided us to newer avenues. We would like to thank our employees, customers, suppliers and other stakeholders, for their dedication and support. We are committed to improving the efficiencies in our operations and differentiating ourselves in the market-place through customer focused innovation in product and services, so as to build a stronger and sustainable future for our Company and our associates.

Evolution of German Chemicals Limited from an infant to a leading player is result of a well-crafted strategy.

ABOUT GERMAN CHEMICALS LIMITED.

GERMAN CHEMICALS LTD. is one of the biggest 100% export oriented Textile Auxiliaries Chemicals industry located in Dhaka Export Processing Zone (DEPZ), Ganakbari Savar, Dhaka, Bangladesh, established in 2004 Under Bangladesh Export Processing Zone Authority (BEPZA).

To give brief sketch of our company's resumed that GERMAN CHEMICALS LTD. is providing world-class Textile Auxiliaries with the co-operation of "ARCHROMA" (Switzerland), RUDOLF CHEMIE" (Germany), "INTERSAC" (Canada), "SIAM PRO DYECHEM GROUP" (Thailand), "SIAM TAKAMATSU CO., LTD". (Japan) in Bangladesh market and we have sold lots of quantities to different Dyeing, Printing, Finishing, & Washing plant. Our customers are reputed Textile Industries of Bangladesh.

We are the biggest ready stock Textile chemical company in Bangladesh. We have our own "Technical team" to give you the best support. We have a Factory with big Ware House in "DEPZ" under BEPZA. Our head office is situated at SFB # 07 Ground Floor, DEPZ under BEPZA, Ganakbari, Savar, Dhaka.

Vision Our Motto "Value Added Effective Services" is focused towards providing our best to the clients to enhance their productivity and profitability.

Mission "We want to be the pioneer "Textile Chemicals" supplier in the region, providing product and services that not only meetup customers requirements but also go far beyond the expectations of our clients."

Values Make it easy. Be inspiring Keep PromisesBe Respectful

WHAT CAN WE DO?

- Offer cost effective Textile Chemicals
- Super Customer Support
- Never a sacrifice on Quality
- Faster delivery than the competitor
- Lab services are always available
- Support is a phone call away
- Insurance through quality control

EXPERIENCE & EXPERTISE

We are highly experienced with international corporate backgrounds and proven service record. The team is highly professional, dynamic and ready to work round the clock to make you reluctant. We define ourselves as an especially customer-oriented company. Rapid communication, flat levels of authority, targeted management, modern marketing, effective research and development, responsive logistics are the essential components of our customer strategy, completed by the competent service of our engineers at the face.

KEYS TO SUCCESS

- Product quality.
- Customer service.
- Access to manufacturers and distribution channels.
- Controlling fixed and variable costs during first three years.

TOTAL COMMITMENT TO TOTAL TEXTILE CHEMICAL SOLUTIONS

Our range of product starts from pretreatment to finishing dying. As well as printing and washing. We have also some special product for dyeing and finishing. GCL offers an excellent service maintaining standard of perfection in all areas of its operations. It also maintains smaller quantities of stock to meet needs of different customers. Dynamic sales and highly qualified foreign trained technical staff are on call to provide the best possible solutions. It has diverse product range for knit, woven and denim garments made from any kind of fibers. GCL has been and is committed to meet its standard. Clients can rest assured of total confidentiality in every step of the process. From the inception of the order to the delivery of final product, maximum control is exercised at all stages. Nothing is left to chance. All wastages are destroyed in the presence of senior officials. Physical security is given top priority. The factory is under round the clock surveillance.

WHY GERMAN CHEMICALS LIMITED **IN BEPZA?**

ABOUT BEPZA

In order to stimulate rapid economic growth of the country, particularly through industrialization, the government has adopted an Open Door Policy (ODP) to attract foreign investment to Bangladesh. The Bangladesh Export Processing Zones Authority (BEPZA) is the official organ of the government to promote, attract and facilitate foreign investment in the Export Processing Zones. The primary objectives of an EPZ are to provide special areas where potential investors would find a congenial investment climate, free from cumbersome procedures.

ABOUT EPZ

An Export Processing Zone (EPZ) is defined as a territorial or economic enclave in whom goods may be imported and manufactured and reshipped with a reduction in duties/and/or minimal intervention by custom officials (World Bank 1999). EPZ Provides:

- Plots/factory BLDG in custom bonded
- Infrastructural facilities
- Administrative facilities
- Fiscal & non-fiscal incentives
- EPZ attracts: foreign & local investment

TYPE OF INVESTMENT

Type-A 100% foreign owned including Bangladeshi nationals ordinarily resident abroad 205 (58%).

Type-B Joint venture between Foreign and Bangladeshi entrepreneurs' resident in Bangladesh 49 (14%).

Type-C 100% Bangladeshi Entrepreneurs resident in Bangladesh

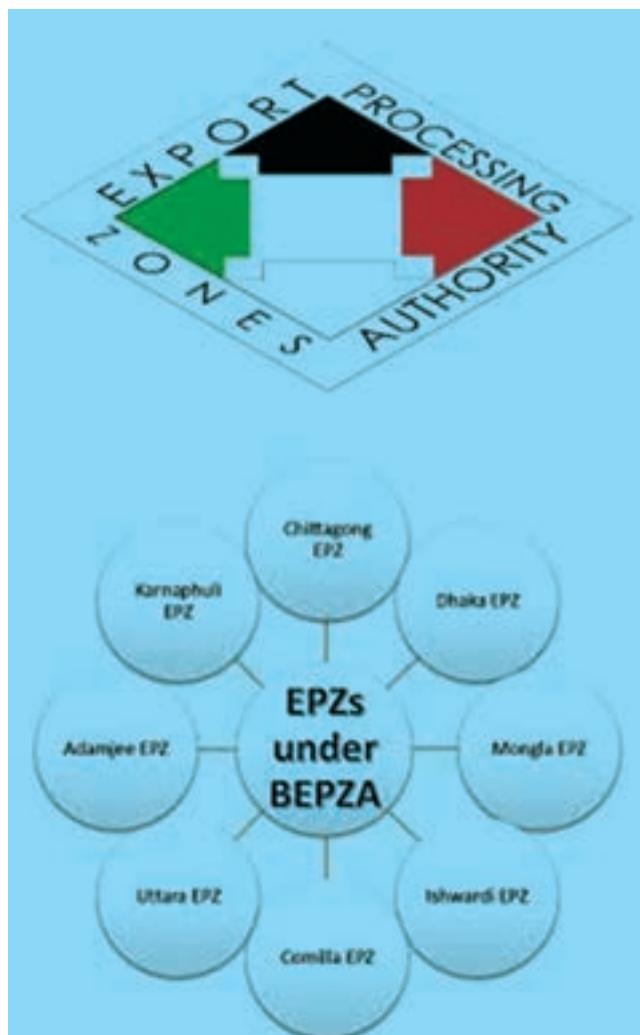

OBJECTIVE AND WHY INVESTMENTS IN BANGLADESH EPZ?

OBJECTIVE

- Promotion of foreign (FDI) & local investment
- Diversification of export
- Dev. OF backward & forward linkages
- Generation of employment
- Transfer of technology
- Up gradation of skill
- Development of management

WHY INVESTMENTS IN BANGLADESH EPZ?

- Law & order situation
- Infrastructure facilities
- Reduction of lead time
- Cost of doing business
- Friendly policy of govt.
- Incentives
- Win – win ventures
- Success story
- Signatory of MIGA (Multilateral Investment Guarantee Agency)
- Signatory of ICSID (International Centre for Settlement of Investment Dispute)
- Member of WIPO (World Intellectual Property Organization)
- Member of OPIC (Overseas Private Investment Corporation)
- Asia's low cost production base

EXCHANGE CONTROL REGULATIONS AND INVESTMENT GUARANTEE

EXCHANGE CONTROL REGULATIONS

- Operation of Export Processing Zone in Bangladesh
- Extension of credit facilities to industries
- Extension of credit/remittance facilities to Type-B industries
- Deposit of export earnings in FC account of Type-A & B industries
- Deposit of export earnings in FC account of Type-B industries
- Deposit of Export Earnings in FC Account of Type-C Industries
- Operation of FC account by Type-B and Type-C garments industries
- Operation of FC account by Type-B and C industries
- Encashment of foreign exchange by the industrial units
- Payment of Bills in FC by Type A & B Enterprises
- Issuance and endorsement of bill of export consignments of Type-A
- Non-resident FC deposit account
- Extension of facilities of non-resident FC deposit account
- Application of Interest on FC Acc. of nonresident persons
- Establishment of banking units in EPZs
- Establishment of off-shore banking units in EPZs
- Simplified Exchange Control Regulations On Certain Issues
- Remittance of royalty, Training and consultancy fees etc.

INVESTMENT GUARANTEE

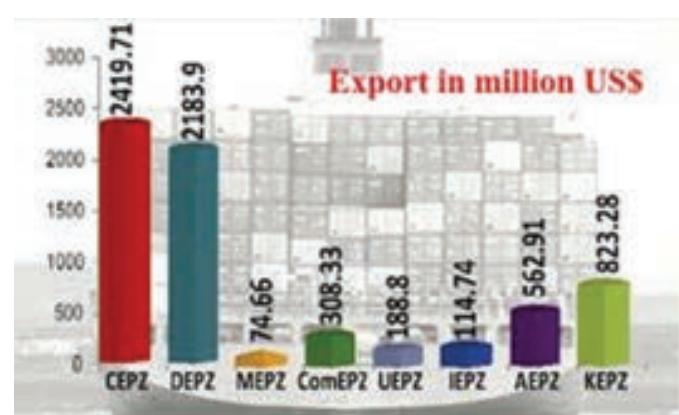

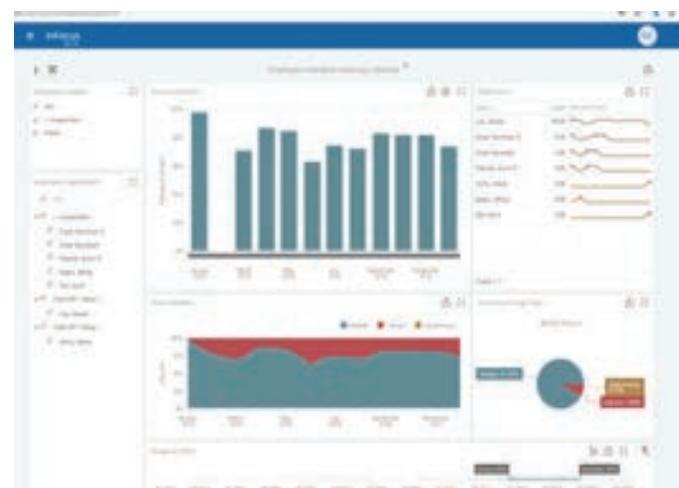

- Foreign Private Investment (Promotion and Protection) Act, 1980 secures all foreign investment in Bangladesh.
- OPIC's (Overseas Investment Corporation, USA) insurance and finance programmers operable.
- Security and safeguards available under Multilateral Investment Guarantee Agency (MIGA) of which Bangladesh is a member.
- Arbitration facility of the International Center for the Settlement of Investment Dispute

PACKAGES OF INCENTIVES

THE FISCAL INCENTIVES:

- 10 years' tax holiday and after that 50% rebate on export sales.
- Income tax exemption of salaries of foreign technical for three years
- Duty free import of machinery, equipment, construction materials
- Duty free import of raw materials
- Duty free export of finished goods
- Relief from double taxation
- Exemption from dividend tax
- Duty free import of two/three duty free vehicles
- Accelerated depreciation on machinery and plant
- Full repatriation of profit, capital & establishment
- GSP facility available
- Remittance of royalty, technical and consultancy fees allowed.
- Duty and quota free access to EU, Canada, Norway, Australia etc.

THE NON-FISCAL INCENTIVES:

- Investment protected under Foreign Private Investment (Promotion and Protection) Act, 1980.
- 100% foreign ownership permissible.
- Enjoys MFN status
- No ceiling on foreign investment and local investment.
- Foreign currency loan from abroad under direct automatic route (OBU facilities)
- Non-resident Foreign Currency Deposit (NFCID) allowed for "A" type industries.
- Operation of FC account by "B" "C" type industries allowed.
- Resident ship/ Citizenship for foreign investors.

FACILITIES:

- No UD, IRC, ERC and renewal of Bond license
- Work Permits issue by BEPZA.
- Secured and Protected Bonded Area
- Off-shore Banking available
- Freedom from import and Export Policy Restrictions.
- Import on Documentary Acceptance (DA) basis
- Back to Back L/C
- Import and Export on CM/ CMT / CMP basis allowed.
- Import from DTA (Domestic Tariff Area)
- 10% sale of finished goods to DTA (Domestic Tariff Area) allowed except garments.
- 10% sale of surplus raw materials
- 10% sale of defective finished goods
- 100% sale / export of backward linkage goods / accessories to any export oriented industries in Bangladesh.
- Customs clearance at Factory Site.
- Simplified sanction Procedure.
- Sub-contraction both taking and offering with Export Oriented Industries inside and outside EPZ allowed.
- Relocation of foreign industries allowed
- Service Oriented Industries allowed.

SUPPORT SERVICE:

- Business: Bank, Courier, Post Office, C&F Agent, Shipping Agent, MTO etc.
- Administrative: Customs Office, Police Station, In-house, Security, Fire Station, Public Transport, Medical Centre etc.
- Others: Restaurant, Health club, Investors club, Recreation Centre, School and College, Sports Complex, Exclusive Telephone Exchange, Electricity Sub Station, Business Centre, Anglers Club.

CLIENTS BASED GCL

German Chemicals Ltd. established at Dhaka Export Processing Zone (EPZ), the leading textile chemical company in Bangladesh since 2004 in collaboration with "ARCHROMA" Switzerland, "RUDOLF CHEMIE" (Germany), "INTERSAC" (Canada), SIAM PRO DYEACHEM GROUP (Thailand), SIAM TAKAMATSU CO., LTD. (Japan) now it has been enhanced from Proprietorship to Limited Company. With the enhancement, GCL is committed to provide quality Customer Service to its valued consumers. During our journey we are very fortunate to serve most promising Textile Industries in Bangladesh. We have created got business relationship side by side friendly relationship with them. We are treating our customer as our Master.

GCL Textile Chemicals Manufacturer Flow Process Plant Diagram

TECHNOLOGY DESCRIPTION

LABORATORY AGITATOR:

ESA laboratory agitator, mixer and disperser is designed to be used in various applications whether experimental or for small productions with power range from 0,55 Kw up to 2,2 Kw.

Rotating speed from 20rpm to 3.500 rpm with various shapes and dimensions of impellers.

TECHNICAL FEATURES:

- Up/Down button for vertical stroke of the column
- Start Rotating Button
- Change rotation Button
- Emergency Button
- Optical sensor tank position confirm
- Inverter speed adjusting
- Self-Ventilated Asynchronous Motor (optional).
- Control panel embedded/separated.
- Tank block made by moving arms and adjusting block belt.
- Tank Bench made of washable anti-slipping rubber

- Usable Impeller: Cow less, Marine propeller ,Air Propeller ,Anchor

TECHNICAL DATA:

- Self-standing column mixer
- Bench framework
- Motor Power 0,55-0,75-1,5-2,2 Kw
- Max. rpm 4500
- Electrical screw-driven stroke of propeller
- Container presence control
- Electronic adjusting speed from 100 to 3500 rpm
- Main shaft and impeller in stainless steel AISI 304
- Maximum viscosity 40.000cps
- White/yellow episodic coating

MIXER AGITATORS

Column agitators, or mixer agitators, for drums, small drums and tanks, suitable for shaking liquid products of any type, thanks to its interchangeable propellers and the inverter engineered RPM adjustment.

TECHNICAL DESCRIPTION:

- Lifting electric agitator
- Electronic speed adjustment
- 0,75 7,5 Kw engineered power
- Maximum shaft torque control
- Drum control
- Propeller positioning control
- Stainless steel frame with lifting on a wall-mounted or self- supporting aluminium linear guideway
- Dimensions: h 2500 xl 800 x p1000

Reactor: The system fully automatizes the use of mixers and reactors for liquids and pastes in chemical industries, making their use easier and faster.

TECHNICAL DESCRIPTION:

- Electronic weighing of a reactor with digital system with 3 /4/6/8 separate loading cells
- Installation of self-levelling cells for ensuring the correct loading distribution
- Weighing accuracy: 100 g on 10 000 Kg
- Checking of agitators with torque control inverter
- Heating and cooling management, also with a sole circuit
- Checking of on-board valves
- Internal temperature control with programmable ramps
- Internal pressure control
- Condenser control
- On-board exchanger control
- Management of multistep manufacturing prescriptions
- Management of temporary, weighted, feedback, conditional additives
- Operator management with badge
- Operator interface with 15" touch-screen terminal
- Ethernet connection with accounting management system
- Ethernet or Bus connection with raw material storage warehouse for automatic supply
- Connection with automatic or semi-automatic ESA drum-filler

CONCLUSION

German Chemicals Ltd. is the foremost Textile Chemicals Processing Industry in Bangladeshi market with the co-operation of "ARCHROMA" (Switzerland), RUDOLF CHEMIE" (Germany), "INTERSAC" (Canada), SIAM PRO DYEACHEM GROUP (Thailand), SIAM TAKAMATSU CO., LTD. (Japan). Ensuring a quality product along with providing coverage around the country has always been a priority focus area of GCL.

Quality is an ongoing activity with plenty of improvement opportunities; GCL has dedicated team to conduct regular extensive quality checks on the grounds and take immediate measures to improve the quality.

GCL supply diversified products to the 100% export oriented Textiles, Garments, Apparel Industries, and Knitwear Industries who are mainly Brand Item manufacturers. We are committed to provide excellent customer service to our valued consumers. Customer feedbacks are given high importance and actions are taken to resolve the identified problems.

GCL is well-position with its' international standard expertise, tools and processes to ensure premium product quality for its' Consumers.

Extensive market expansion measures are implemented to keep up with the rapid growth of consumers. As a leader we never compromise with our product quality at the same time we tried to make it cost effective for our valuable clients. GCL focuses on providing high-quality products to consumers with outstanding service. Customization of orders and specialization of services create a competitive advantage. Samples and technical support are always available.

Our chemicals has get the chance to satisfy the Buyers of UK, USA, EU countries as we are GOTS listed, OEKO-TEX certified and above all our chemicals is environment friendly i.e. AZO,APEO, NPEO free. GCL chemicals also have ISO 14001(environmental management) certification.

GCL has the ability to custom manufacture a particular product for a specific application because of having the facility of constant research and development facility in own laboratory. In addition of Bonded Warehouse facility most orders are processed within a 72 hours' time frame. Moreover we are the unique supplier of some exclusive textile auxiliaries in Bangladesh.

Special efforts are taken to establish strong relations with both suppliers and buyers. These relationships will help GCL to grow and evolve in this sector in recent future.

We are very much careful about our Research Division. In the mean time we have already implemented the following and working on this with serious attention. Our responsible experts are busy with their assigned job in this respect.

SOME MACHENERIES OF GCL

- ✓ Industrial Process Development & Cost analysis.
- ✓ Implementation of NANO Technology in Textile Industries.
- ✓ Development of ECO Friendly/Bio Degradable Chemicals for Textile Industry.
- ✓ Development of effluents treatment method.
- ✓ Development of Textile Chemicals characteristics for getting high class apparels without any hazardous materials.
- ✓ Human Resource Development in the Industrial Sectors.
- ✓ Implementation of Renewable Energy in the Industrial Sectors.
